

Spray to protect your investment!

Savage Sprayers

If your orchard isn't producing as it should be, it may be time to invest in a new Savage Sprayer. Whether you need to control insect pests, fungus or mineral deficiencies, a Savage Sprayer will get the job done and get nut production and profits back on track.

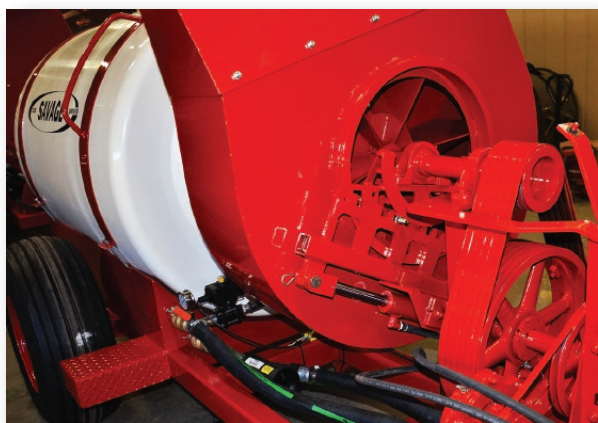

Savage makes rugged, powerful sprayers that are engineered for the unique environment of the

pecan orchard, but ideal for many other tree-spraying applications as well. The toughest pecan orchards are all in a day's work for a Savage Sprayer. Very tall trees? Mixed sizes? Random spacing? Our sprayers have you covered. You can see them in action on our website, and our Youtube channel, www.youtube.com/savageequipmentinc.

Savage Sprayers

Savage sprayers protect profits by keeping trees healthy!

From high-quality components to the rugged, expertly crafted steel construction, you'll find quality in every part of a Savage Sprayer.

Well managed orchards return higher profits, and a Savage Sprayer may be just what you need to bring your orchard up to peak performance. With so many sizes available, one of them is certain to be an ideal fit for your orchard and tractor.

Many other brands of sprayers are designed for row crops, but Savage produces sprayers that are engineered with the power and versatility to meet the demands of the pecan orchard. Our sprayers allow you to turn off the sprayer between trees without turning off the agitator. You will enjoy a full 160 degrees of volute rotation and the ability to spray on either side—all with convenient controls at the tractor seat.

Savage Sprayer Features:

- Tractor-seat controls for on/off & spray angle
- Powerful Delavan Turbo pump—spray penetrates outer canopy for complete coverage
- Large tanks and fill wells mean less down time
- Spray at any angle left or right
- Finely balanced steel fan blades
- High-flotation tires
